

INTRODUCTION

STUDENT PORTAL OVERVIEW

The Texas Assessment Student Portal is designed to provide students and parents with online access to a student's state assessment scores. This portal will assist a student and his or her parents with tracking assessment information throughout the student's academic career.

The portal provides scores from the State of Texas Assessments of Academic Readiness (STAAR®), STAAR Alternate (includes STAAR Alternate 2), the Texas English Language Proficiency Assessment System (TELPAS), and the Texas Assessment of Knowledge and Skills (TAKS). TAKS–Alternate scores are not available through the Student Portal.

TECHNICAL SUPPORT

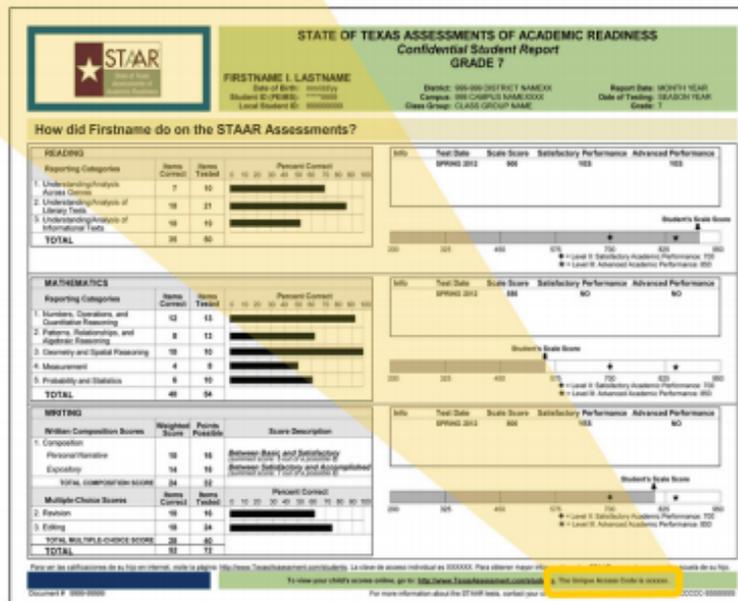

If you have any questions, please contact eMetric support at support@emetric.net or by calling toll-free (877) 829-7769.

ACCESS

Users will access The Texas Assessment Data Portal, Student Portal via the following URL: txparentportal.emetric.net

Access to the portal is provided through a Unique Access Code and the student's birth date, as provided on the student's Confidential Student Report (CSR). The Unique Access Code contains a combination of numbers and capital letters. The Unique Access Code must be entered as it appears on the bottom of the CSR. Refer to the example below.

s. The Unique Access Code is xxxxxx.

NOTE: The Unique Access Code is designed to stay with a student throughout his or her academic career. The Unique Access Code should be safeguarded in the same way as the CSR. Copies of the CSR with the Unique Access Code can be obtained from the student's campus, if needed.

Follow the steps below to log in to the Student Portal.

1. Enter the following URL into a web browser. This will take you to the login page: <http://txparentportal.emetric.net>

2. Enter the student's unique access code.

3. Select the month, day, and year of the student's date of birth from the drop down menus.

Enter access code and student date of birth:

Access Code

Month Day Year

▶ Where's my access code?

To log in and view your assessment results, enter your six-character Unique Access Code and the student's date of birth that appears on your most recent Confidential Student Report.

The Unique Access Code will contain a combination of numbers and capital letters. The access code is case sensitive and must be entered exactly as it appears on the most recent Confidential Student Report.

For more information about your assessment results or if you do not have your Unique Access Code, contact your school.

4. Click the "Go" button to login.

NOTE: The date of birth used for logging in must match the date of birth on the CSR (located in the top right corner, under the student's name). If the date of birth is incorrect on the CSR, contact the student's campus.

STUDENT PORTAL TESTING HISTORY VIEW

After logging in, users will see a list of the student’s testing history for all applicable programs, sorted in descending order with the most recent test event at the top.

Filter test history by program(s) and/or administration(s)

Filters

	STAAR Spanish Grade 5 Reading	June 2014 School C	Scale Score: S-1427 Level II: Satisfactory	
	TAKS Grade 7 Mathematics	April 2013 School C	Scale Score: 606	
	STAAR Alternate Algebra I	April 2013 School C	Score: 65 Level III: Accomplished	
	STAAR Alternate English II	April 2013 School C	Score: 30	
	STAAR Alternate English I	Spring 2013 School C	Not Tested (Absent)	
	STAAR Grade 4 Reading	Spring 2012 School D	Scale Score: 1499	
	TELPAS Grades 6-7	Spring 2012 School D	Composite Score: 2 Rating: Intermediate	
	TAKS Grade 4 Mathematics	June 2011 School D	NOT TESTED: ARD DECISION	

Users can filter for one or more programs by selecting  on the top right part of the page. Selecting a checkbox next to a program to see testing events for that program. More than one checkbox can be selected at once to see results for desired programs.

The screenshot shows the Texas Assessment Data Portal interface. At the top left is the Texas state logo and the text "Texas Assessment Data Portal". At the top right, it says "Welcome, Jane Doe" with links for "Help", "Support/FAQ", and "Sign Out". Below the header is a section for "Jane Doe Testing History" with a bar chart icon. A "Filters" button is circled in orange in the top right. A blue callout box points to the "Filters" button with the text: "Click filter and select checkboxes to filter test results by program(s)". A dark blue filter overlay is open, showing a "Test:" section with four checkboxes: "STAAR" (checked), "TELPAS", "STAAR Alternate", and "TAKS". Below this is an "Administration:" section with a range slider set from 2008 to 2017. The background shows a table of test results with columns for test name, date, school, and score.

Test Name	Date	School	Score
STAAR Grade 9 Science	Spring 2017	School A	Scale Score
STAAR L Biology	Spring 2017	School A	Scale Score Level III
STAAR L Algebra II	Spring 2017	School A	Scale Score Level II
STAAR L Algebra I	Spring 2017	School A	Scale Score
STAAR Grade 7 Science	Spring 2015	School B	Not Tested
STAAR Grade 7 Mathematics	Spring 2015	School B	Scale Score
STAAR Spanish Grade 5 Reading	June 2014	School C	Scale Score Level II
STAAR Grade 4 Reading	Spring 2012	School C	Scale Score

NOTE: The STAAR program includes STAAR 3-8 and STAAR EOC test events. STAAR Alternate program includes both STAAR Alternate and STAAR Alternate 2 test events.

Slide the **Administration:** bar to adjust the administrative date range for the testing results displayed. In the example below we have adjusted the date range to show only testing results between 2016 and 2017.

STUDENT DETAILS AND SCALE SCORE COMPARISON

The top half of the student report displays the assessment taken, the assessment date, the campus where the test was taken, the scale score, whether the student achieved the minimum score (this is displayed only for STAAR EOC and STAAR L EOC assessments prior to spring 2014; this is not displayed for STAAR grades 3–8, STAAR A, or STAAR Modified), the level the student achieved; and the student’s progress/growth measure where applicable.

In this example, the student scored 1435 on a scale that has 870 as the lowest score and 1996 as the highest score. The student Did Not Meet the grade level measure for performance. The scale score shows the range of performance possible on each test. The student’s Growth was Expected.

Performance Levels (2017 forward):

- **Masters** — Mastery of the course knowledge and skills is shown – student is on-track for college and career readiness.
- **Meets** — Strong knowledge of course content – student is prepared to progress to the next grade.
- **Approaches** — Some knowledge of course content, but may be missing critical elements – student needs additional support in the coming year.
- **Did not Meet** — No basic understanding of course expectations is shown – student may need significant support in the coming year.

ELL and STAAR Progress Measures:

There are two types of progress measures that can display for a student—the STAAR progress measure and the ELL progress measure. Both progress measures are measured as Did Not Meet, Met, or Exceeded.

- The STAAR progress measure is based on a comparison of the student’s score last year with his or her score this year. This measure gives you information about how much the student improved from one year to the next. Please note that starting in March 2017, Growth is reported in place of STAAR Progress Measure. Growth indicates whether a student’s growth from last year to this year was Limited, Accelerated, or Expected.
- The ELL progress measure is based on how students are expected to perform on STAAR assessments given their level of English and the amount of time they have been going to school in the United States. The ELL progress measure is for STAAR assessments administered in English. This progress measure gives you information about whether the student’s progress in acquiring on-grade level academic skills is reasonable based on his or her English proficiency and schooling. The student’s current year within his or her ELL progress measure plan is also provided.

Scale Score Comparison:

The student’s scale score is compared to the Campus (C), District (D) and State (S) averages for the same test. In the example above, the student scored above the district and state averages, and the campus average was not displayed because the total number of students was less than 5.

REPORTING CATEGORIES

The Reporting Category Results section lists the reporting categories tested in the selected assessment.

Category Results

Category	Answered Correctly
1. Understanding/Analysis Across Genres	4/8
2. Understanding/Analysis of Literary Texts	6/16
3. Understanding/Analysis of Informational Texts	9/14
Total	19/38

For more information about the tests, contact your school.

Reporting Categories Displaying Item Information:

For STAAR mathematics, science, and social studies assessments, the number of items answered correctly compared to the total number of items for each reporting category is displayed preceding a blue bar that indicates the percent correct of items for each reporting category.

In the example above, the student answered 4 of 8 items correctly for the Understanding/Analysis Across Genres reporting category. The student answered a total of 19 items correctly out of 38 items across reporting categories.

Reporting Categories Displaying Point Information:

For STAAR writing, reading, and English assessments, total point earned compared to the total possible points is displayed preceding a blue bar that indicates the percent of points earned for each reporting category.
