INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Miller Grove Independent School District
Cumby, Texas

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Miller Grove Independent School District (the District) as of and for the year ended August 31, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Miller Grove Independent School District as of August 31, 2010, and the respective changes in financial position, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2010, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 12 and pages 49 and 50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's financial statements as a whole. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Texas Education Agency requires school districts to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. The information is in Exhibits identified in the Table of Contents as J-1 through J-5. Except for Exhibit J-3 (Cash Flow and the Optimum Fund Balance Calculation Schedule) which is marked UNAUDITED and on which we express no opinion, these schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the MILLER GROVE Independent School District we offer readers of the MILLER GROVE Independent School District's financial statements this narrative overview and analysis of the financial activities of the MILLER GROVE Independent School District for the year ended August 31, 2010. The information presented here should be read in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

The District's total combined net assets were \$1.99 million at August 31, 2010. During the year, the District's total revenues exceeded expenses by \$373 thousand. Total expenses of the District were \$2.55 million for the year.

The District reported fund balance in the general fund of \$859 thousand at August 31, 2010, which is an increase of approximately \$348 thousand. Expenditures were up \$98 thousand. Instructional costs were up. Revenues were up \$79 thousand. State aid was up \$87 thousand. The general fund balance increased \$365 thousand the prior year.

\$70 thousand of debt was retired during the year.

Approximately 95% of the taxes levied for 2009-10 were collected by fiscal year end.

OVERVIEW OF THE FINANCIAL STATEMENTS

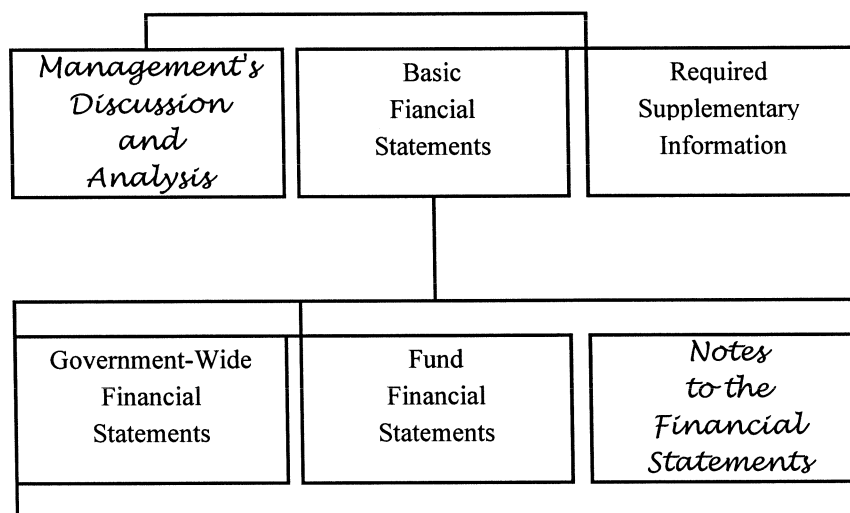

This annual report consists of three parts--*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
 - The *governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
 - *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government wide statements or the fund financial statements.

The combining statements for non-major funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Figure A-1. Required Components of the District's Annual Financial Report

Summary ⇐⇒ Detail

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

(A) The District has no enterprise funds.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net assets* and how they have changed. Net assets, the difference between the District's assets and liabilities, is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, consideration should be given to additional non-financial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities. Also included are business-type activities. The District charges a fee to "customers" to help cover the costs of services provided.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*-not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has two kinds of funds:

- *Governmental funds*-Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided that explains the relationship (or differences) between them.
- *Fiduciary funds*-The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that-because of a trust arrangement-can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net assets. The District's combined net assets were approximately \$1.99 million at August 31, 2010.

Net assets invested in capital assets net of related debt reflects the book value of the District's capital assets in excess of the debt which financed those assets. The \$874 thousand of unrestricted net assets represents resources available to fund the programs of the District for the next fiscal year.

The \$110 thousand is restricted as follows:

Restricted for food service	8
Restricted for debt service	102
	<u>110</u>

Net assets of the District's governmental activities increased from \$1.6 million to \$1.99 million, or \$373 thousand. The increase was the result of three main factors. First, the District's revenues exceeded expenditures by \$353 thousand. Second, the District paid \$70 thousand principal on long-term debt and purchased fixed assets of \$50 thousand. Third, the District recorded depreciation of \$98 thousand.

Changes in net assets.

The District's total revenues were \$2.9 million. 20% of this comes from taxes, 61% was from state aid formula grants and 15% came from operating grants and contributions.

The total cost of all programs was \$2.55 million. Approximately 65% of this was for instructional and student services.

Net assets increased by \$373 thousand from the excess of expenses over revenues.

Table A-3 presents the cost of each of the District's largest functions as well as each function's *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this year was \$2.55 million.
- However, the amount that taxpayers paid for these activities through property taxes was only \$567 thousand.
- Some of the cost was paid by those who directly benefited from the programs (\$54 thousand), or by grants and contributions (\$447 thousand).

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District reported fund balance in its governmental funds of approximately \$968 thousand reflecting a net increase of \$353 thousand.

Expenditures were up \$97 thousand in the general fund. Revenues were up about \$80 thousand. The increase to the general fund balance was \$348 thousand which is approximately the same as the previous year.

General Fund Budgetary Highlights

Several budget amendments were made during the year. In total, actual expenditures were less than budgeted by \$163 thousand. All functions were properly budgeted.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Miller Grove Independent School District's Board of Trustees and administrative Staff considered many factors when setting the fiscal year 2011 budget and tax rates. One of these factors is the economy. The district's population growth has been slow over the past few years and we have experienced a slight increase in ADA of approximately ten students per year. This year however, enrollment was a little less than the ending of last year. We do not know where the students went to, but they appear to have moved from the area. For all planning purposes, the old enrollment from 2009-2010 will continue to be used until an established pattern of something different is established.

In the past year, appraised property values have dropped approximately 3%, yet we were fortunate that we were successful in passing a rollback election two years ago allowing us to raise the M&O rate to \$1.17. There has been a small increase in the amount of property available for purchase, yet sales are slow due to the depressed economy. It appears that the majority of the homes sold in the past year are to retired people with no school-aged children. Growth is expected in the future as more affordable housing becomes available.

Miller Grove ISD is primarily an agricultural area. While unemployment remains low, there has been slow change in the occupation of district residents. The number of residents who work in jobs outside district boundaries continues to rise, but is affected by the cost of fuel.

The Board knew that some difficult personnel decisions had to be made and agreed to cut four positions before the 2007-2008 school year. In addition, two more positions were not filled before the 2008-2009 school to provide additional cost savings.

The above factors were taken into consideration when adopting the General Fund Budget for 2011. The Board knows that several areas must be addressed in the next year or two. We were able to purchase three used busses in the past two years to replace old, high mileage buses used on the routes each day. Changes have to be made in the cafeteria to comply with changes in food preparation and replace failing kitchen equipment. Finally, plant maintenance issues, for example failing A/C units, must plan on being replaced as they fail.

It was the Board's wish to help increase the fund balance and provide additional monies to cover unexpected costs if they arose. The Board voted to maintain the \$1.17 M&O rate allowed by the election. A balanced budget was adopted for the 10-11 school year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the Miller Grove Independent School District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the District's Central Business Office.

 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
 STATEMENT OF NET ASSETS
 AUGUST 31, 2010

Total Fund Balances - Governmental Funds	\$ 968,419
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$4,637,524 and the accumulated depreciation was \$1,312,022. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net assets.	985,502
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2010 capital outlays and debt principal payments is to increase (decrease) net assets.	120,000
3 The 2010 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net assets.	(98,263)
4 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net assets.	15,610

MILLER GROVE INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

MILLER GROVE INDEPENDENT SCHOOL DISTRICT (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Assets and the Statement of Activities are government-wide financial statements. They report information on all of the MILLER GROVE INDEPENDENT SCHOOL DISTRICT activities with most of the inter-fund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. The District has no business type activities.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. Direct costs are those that are clearly identifiable with a specific function. Program revenues of the District include charges for services and operating grants and contributions. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Inter-fund activities between governmental funds appear as due to/due froms on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. Inter-fund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for two fund categories - governmental, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors some times require the District to refund all or part of the unused amount.

D. FUND ACCOUNTING

The District's accounts are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which are comprised of each funds assets, liabilities, equity, revenues and expenditures.

The District reports the following major governmental funds:

1. **The General Fund** – The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Debt Service Fund** – The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

1. **Special Revenue Funds** – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.
2. **Capital Projects Fund** – The proceeds from long-term debt financing and revenue and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Fiduciary Funds:

1. **Agency Funds** - The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Funds are student activity funds.

E. OTHER ACCOUNTING POLICIES

1. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets.
2. Capital assets, which include land, buildings, furniture and equipment are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District and the component units are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building Improvements	20-50
Vehicles	10
Office Equipment	10
Computer Equipment	10

3. In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.
4. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.
5. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a State-wide data base for policy development and funding plans.
6. School Districts are required to report all expenses by function, except certain indirect expenses. General administration and data processing service functions (data control codes 41 and 53, respectively) include expenses that are indirect expenses of other functions. These indirect expenses are not allocated to other functions.
7. Investments are carried at fair value.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET ASSETS

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net assets for governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

<u>Capital Assets</u> <u>at the Beginning of the year</u>	<u>Historic Cost</u>	<u>Accumulated</u> <u>Depreciation</u>	<u>Net Value at the</u> <u>Beginning of the</u> <u>Year</u>	<u>Change in Net</u> <u>Assets</u>
Land	66,810	-	66,810

Change in Net Assets				<u>(2,340,000)</u>
Net Adjustment to Net Assets				<u>985,502</u>

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net assets of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net asset balance and the change in net assets. The details of this adjustment are as follows:

	<u>Amount</u>	<u>Adjustments to</u> <u>Changes in Net</u> <u>Assets</u>	<u>Adjustments to</u> <u>Net Assets</u>
<u>Current year Capital Outlay</u>			
Furniture & Equipment	50,000	50,000	50,000
Total Capital Outlay	<u>50,000</u>	<u>50,000</u>	<u>50,000</u>
<u>Debt Principal Payments</u>			
Bond Principal	70,000	70,000	70,000
Loan Principal	-	-	-
Total Principal Payments	<u>70,000</u>	<u>70,000</u>	<u>70,000</u>
Total Adjustment to Net Assets		<u>120,000</u>	<u>120,000</u>

Another element of the reconciliation on Exhibit C-4 is described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details for this element are as follows:

	<u>Amount</u>	<u>Adjustments to</u> <u>Change in Net</u> <u>Assets</u>	<u>Adjustments</u> <u>to Net</u> <u>Assets</u>
<u>Adjustments to Revenue and Deferred Revenue</u>			
Taxes Collected from Prior Year Levies	23,735	(23,735)	-
Uncollected taxes (assumed collectible) from Current Year Levy	15,610	15,610	15,610
Effect of prior year tax entries	<u>5,453</u>	<u>5,453</u>	-
Total		<u>(2,672)</u>	<u>15,610</u>

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds if they are considered major funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit C-5 and the other two reports are in Exhibit J-4 and J-5.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and non-appropriated budget special revenue funds is as follows:

	August 31, 2010 <u>Fund Balance</u>
Appropriated Budget Funds - Food Service Special Revenue Fund	7,520
Nonappropriated Budget Funds	<u>-</u>
All Special Revenue Funds	<u><u>7,520</u></u>

IV. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

Legal and Contractual Provisions Governing Deposits and Investments

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The district is in substantial compliance with the requirements of the Act and with local policies.

Additional contractual provisions governing deposits and investments for the District are as follows:

Policies Governing Deposits and Investments

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy does address the following risks:

1. **Custodial Credit Risk – Deposits:** In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy regarding types of deposits allowed and collateral requirements is that the funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping in an amount sufficient to protect the District's funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

Deposits of the District are insured or collateralized with securities held by the pledging financial institution's trust department or agent in the name of the District.

At August 31, 2010, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$367,134 and the bank balance was \$413,055. The District's cash deposits at August 31, 2010 and during the year ended August 31, 2010 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Depository: Alliance Bank
- b. The market value of securities pledged as of the date of the highest combined balance on deposit was \$232,330.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$730,597 and occurred during the month of November, 2009.

- d. Total amount of FDIC coverage at the time of the highest combined balance was \$500,000.
2. Custodial Credit Risk – Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Positions in external investment pools are not subject to custodial credit risk. The District has no investments exposed to custodial credit risk at the end of the period.
 3. Interest- rate Risk – Interest-rate risk occurs when potential purchases of debt securities do not agree to pay face value for these securities if interest rates rise. The District does not purchase investments where the face value is not guaranteed.
 4. Concentration Risk – Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investments in external investment pools are not subject to concentration risk. The District is not exposed to any amounts of concentration risk.
 5. Other Credit Risk Exposure – The District has investments in external investment pools. The rating of the pool is disclosed below.

Investment Type	Fair Value	Average <u>CreditQuality/</u> Ratings	Weighted <u>Avg. Days</u> to Maturity
Logic	386,120	AAAm	40
Lonestar	24	AAAm	34

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

F. BONDS PAYABLE

In September, 2000 the District adopted an order authorizing the issuance of \$1,300,000, Miller Grove ISD Unlimited Tax School Building Bonds, Series 2000. The bonds were issued pursuant to Sections 45.001 and 45.003 (b)(1) of the Texas Education Code, as amended. The proceeds were used for the construction of a new Junior/Senior High School, the demolition of an existing structure and to pay costs associated with the issuance of the Bonds.

Bonds dated September 23, 2002 totaling \$1,500,000 were issued. Proceeds from the Miller Grove Independent School District Unlimited Tax School Building Bonds, Series 2002 were used to construct, renovate, and equip school buildings and to pay costs associated with the issuance of the bonds. The bonds were issued pursuant to sections 45.001 and 45.003 (B)(1) of the Texas Education Code as amended and bear an effective interest rate of 3.80% to 5.50%.

Bonded indebtedness of the District is reflected in the General Long-Term Debt Account Group, and current requirements for principal and interest expenditures are accounted for in the Debt Service Fund.

H. DEFINED BENEFIT PENSION PLAN

Plan Description. MILLER GROVE INDEPENDENT SCHOOL DISTRICT contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy. State law provides for fiscal years 2008, 2009 and 2010 a state contribution rate of 6.0% and a member contribution rate of 6.4%. In certain instances the reporting district (I.S.D., college, university, or state agency) is required to make all or a portion of the state's 6.0% contribution. Contribution requirements are not actuarially determined but are legally established each biennium pursuant to the following state funding policy: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10.0% of the aggregate annual compensation of all members of the system during that fiscal year; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of a the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State contributions to TRS made on behalf of MILLER GROVE INDEPENDENT SCHOOL DISTRICT's employees for the years ended August 31, 2008, 2009 and 2010 were \$83,232, \$77,870, and \$88,155 respectively. MILLER GROVE INDEPENDENT SCHOOL DISTRICT paid additional state contributions for the years ended August 31, 2008, 2009, and 2010 in the amount of \$9,650, \$10,536, and \$8,205 respectively, on the portion of the employees' salaries that exceeded the statutory minimum. In addition to the pension plan and TRS-Care on behalf, the District allocated a portion of the Medicare Part D retiree drug subsidy the TRS-Care receives. The amount allocated on behalf for the year ended August 31, 2010 is estimated by TRS at \$3,174.

I. HEALTHCARE COVERAGE

During the year ended August 31, 2010 employees of Miller Grove Independent School District were covered by a health insurance plan with TRS Active-Care. The District paid premiums of \$150 per month per employee to the Plan and employees, at their option, authorized payroll withholdings to pay contributions or premiums for dependents. The terms of coverage and premium costs are included in the contractual provisions.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

Board of Trustees
Miller Grove Independent School District
Cumby, Texas

Members of the Board:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Miller Grove Independent School District as of and for the year ended August 31, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 29, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Miller Grove Independent School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Miller Grove Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is reported as item 10-1 on the schedule of findings and questioned costs.

This report is intended solely for the information and use of management, the Board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
